

**Notification Date** 17<sup>th</sup> September 2024

**Effective From** Expected to transition Q1 2025

**Products covered by this Part Change Notification**

ECX10N20	ECX10N20-S	ECW20N20	ECW20N20-S
ECX10P20	ECX10P20-S	ECW20P20	ECW20P20-S

**Description of Change**

Starting wafer size changed from 4" to 6".  
6" wafers fabricated on a more modern fab with improved clean room specification, improved wafer cleaning equipment, and higher precision lithographic equipment. These changes should result in better process control, less defects and greater availability.

**Reason for Change**

4" Wafer supplier ceased production, and 4" fab production line retired.

**Marking Specifications**

**First Line**

Part number

**Second Line**

W6yyww

Where yyww is the datecode with year and week number of assembly.

**Third Line**

Lot number

999999

**Anticipated impact on customer applications and assembly**

No impact on assembly, operation, or reliability.
